The Democrats will lead off to-morrow night with their county convention and the Republicans will follow on Tuesday night

John F. Clarke will head the Democratic county ticket with a renomination for the third time for District Attorney, Henry P. Molloy and Frederick Lundy will also be renominated for County Clerk and Register respectively, thus leaving office of Sheriff to be disposed of. As Sheriff Quinn is ineligible for reelection s scramble for his place has been going a scramble for his place has been going as speedy a trial and sattlement of the onfor several weeks, but the fight seems case as possible and shall use my influtohave narrowed down to James S. As to an influential district leader who is at Mr. Huppuch's official connection with the Public Service Commission I do not see present State deputy excise commissioner; and Joseph A. Guider, who has been strongly pressed for the nomination by the Eleventh Assembly district organization, and has other strong backing. Dennis J. Donovan of the Twelfth district is also a hot aspirant and threatens to run on the Independence League ticket if he does not get the nomination.

Mr. McCooey, the county leader, is somewhat worried over the shrievalty up before the convention meets. While the question is still in legal dispute as to whether a successor is to be elected this year to fill the vacancy caused by the death of Justice Fielder in the Sixth name Justice William S. makeup of the Republican county ticket and it is not likely to be cleared up before the eve of the convention to-morrow night. Charles S. Devoy, who lost his County Court through one of the "ripper" bills, is slated for the County Clerkship nomination. Among the leading aspirants for Sheriff are John Kissel, E. T. O'Loughin of the Independence League and William H. Friday, and among those for Register are John S. McKeon, Robert District Attorney the names most considered are former Police Commissioner James C. Cropsev. Robert H. Wilson and Arnon L. Squiers. Mr. Cropsey has come nto special prominence as an available Andidate for this office since he has been ting as special inquisitor in the probing of the affairs of the defunct Union Bank.

The Republicans are waiting with much interest for the Court of Appeals to hand down a final decision on the constitutionality of the Levy election law, which is is expected to-day or to-morrow. If it is favorable to them a deal with the Independence League organizations may be hurriedly effected and one place conceded to it on the county licket.

The Republicans are waiting with much interest for President next year and not one controlled by Wall Street. He refused to say whom he preferred.

The league judiciary convention at a protracted session on Friday night appointed Herman N. Hanson, William J. Taylor and Sheriff Thomas M. Quinn of Queens county a committee to make the nominations. Submarines—Grayling, Bonta, Aarpon.

These vessels make a total of fifty-four fighting ships. To these can be added three battleships, the Iowa, Indiana and Massachuestts, and four cruisers, the Birmingham, Montana, Tacoma and Tennessee, all of which are in reserve at the Atlantic coast yards, which would bring up the total to sixty-one war vessels. In addition there are smaller cruisers and gunboats, such as the Des Moines, Eagle, Marietta, Montgomery, Paducah and Wheeling, which are now on special service but some of which are available for the big naval show. The reviewing vessels probably will be the President's yacht Mayflower and the Dolphin, the despatch boat of the Secretary of the Navy. If all these vessels are ordered to New York the total number of fighting vessels will be about seventy.

NEW JERSEY'S WILSON BOOM

Governor Makes a Speech After the Federation Has Strongly Indorsed Him as New Jersey's Candidate for President Predicts Great Things for His Party.

TRENTON, N. J., Oct. 7 -- With no word protest Gov. The resolutions were offered by William C. French, Democratic candidate for the Senate from Camden county, and they were put through without opposition and with some degree of enthusiasm. The resolutions read:

The Governor urged the Democrats to get together so that they would not slip back an inch. Looking into the future the Governor said it was made bright because the

or men who never grow old. It has no place for standpatters or those who live only in the past.

The convention was attended by about sixty delegates representing clubs in various parts of the State and by as many more outsiders gathered to hear the addresses. United States Senator James E. Martine was among the speakers. In his view there was no one in sight on the political horizon but Gov. Wilson. Other speakers were Mayor Frederick W. Donnelly of Trenton, who told what had been accomplished under commission government. Chairman Edward E. Grosseup of the Democratic State committee, who asked for support during the coming campaign; Job H. Lippincott, Jr., of Jersey City, and Ray E. Mayham, president of the federation.

"When Mr. Gary of steel fame testifled "When Mr. Gary of steel fame testified before the Stanley committee recently he said that there was one group of men in New York who could bring about a panic if they so wished, but that they were too patriotic. Nevertheless they could if they wanted to. There is no group of men in Canada that can bring on a panic. Canada knew all these things as you know them and as I knew them, and these were her reasons for rejecting reciprocity."

Yesterday's break in the stocks and bonds of the Allis-Chalmers Company was peculiar only in that it was accompanied by no particular rumors and by no manifest interest on the part of anybody in the old rumor, which was receivership of course. There were no official denials of impending receivership, because the only resident executive official of the company was out of town. From directors of the company nothing more was learned than that the quick assets of the company would of themselves seem to justify better prices for the bonds. All that has been said before at some length. Some traders recol-lected that in 1996 there existed considerable pools in Allis-Chalmers bonds. Just what has become of those pools nobody seems to know. The assumption yesterday that they had been breaking up lately, and rather too quickly for this market.

The common stock of the company sold yesterday to a record low of 2, while the preferred went down to 13, both losing 3% points on the day. Earlier in the year a price of 79 was touched by the 5s, while last year fluctuation in them was from a high of 84% to a low of 72.

The fortnightly bulletin on idle showed a reduction in idle units of 14,245 France, for the period ended September 27. returns were thought to be in no way remarkable The present figures show nowever, that there is less idle equipment on our ratiroads than at any time since last December. A year ago the net surplus of idle cars was 24,528, against 50,038 now The figure for 1910 represented a decrease from its preceding fortnight of 22,548, showing that there was in September, 1910, a much heavier traffic movement than there has been this year.

Marshall Field & Co.'s weekly review of Current business in wholesale dry goods ind notions continues to reflect a normal retail trade in almost every section of the country. Business is especially good in sections where there are heavy crops, as farmers are re civing higher prices for products and are not holding back in supplyng their wants. Low retail stocks have esulted in a considerable increase in th number of buyers in town as compared with the corresponding week a year ago that merchants feel the necessity of filling n their stocks extensively
